FDD Abstract [REDACTED]

25X1A

25X1A PLANT PRODUCTION OF ENTERPRISES UNDER THE MINISTRY OF METALLURGY AND ORE MINING (7 pp;
German; [REDACTED]

25X1X

25X1A This [REDACTED] document can be divided into two parts. The first, six pages of tables, consists of a semimonthly report for the period 1 - 15 January 1952 on production and quota fulfillments of plants under the Main Departments for the Iron Industry, the Non-Ferrous Metal Industry, and Ore Mining, all under the Ministry of Metallurgy and Ore Mining.

The table headings are: Product; Unit of Measurement; For the Report Month: Quota, Fulfillment in the Report Month, and Fulfillment in Percent; For the Year: Plan Quota, Quota for the Period since the Beginning of the Year, Fulfillment since the Beginning of the Year; Fulfillment in Percent of the Plan Quota, and Fulfillment in Percent of the Quota for the Period since the Beginning of the Year.

A further breakdown is made in the Product column, giving the names of the enterprises that produced it; quantities produced by the individual enterprises are also given.

The second part of the document consists of a one-page table, giving information on deliveries made to SAG (Soviet Corporation) enterprises from 1 - 15 January 1952.

The table headings are: Type of Product; Unit of Measurement; Supplying Plant; Quota according to Order; Received since ~~the~~ 1 January 1952; Deliveries since 1 January 1952; and Remarks.

Figures are given for deliveries made by the following plants: Brandenburg, Groeditz, Hennigsdorf, Maxhuetten, Riesa, Doehlen, and Ilseburg (all steel mills). The following products were delivered: Siemens-Martin steel ingots, semi-finished steel, structural steel, cast iron, malleable cast iron, steel castings, and forgings.

25X1A /The foreign language document or a microfilm of it [REDACTED] is available from CIA Library, [REDACTED]
